Md. Abdullah Al Anan

Dhaka, Bangladesh | Email: ananavoid56@gmail.com | Phone: +8801797-193393 | Abdullah Al Anan

Urban and Regional Planning (BURP) graduate from KUET. Proficient in GIS, remote sensing, programming, AI based spatial modelling, data science, interactive spatial visualizations and environmental laboratory experiments.

EDUCATION

Bachelor of Urban and Regional Planning
March, 2022 – August, 2026

Department of Urban and Regional Planning,
Khulna University of Engineering & Technology, Khulna-9203, Bangladesh
CGPA: 3.79 (out of 4.00)

Higher School Certificate
Session 2020

BAF Shaheen College Kurmitola, Dhaka
GPA: 5.00 (out of 5.00)

WORK EXPERIENCE

Assistant Urban Planner, Sheltech Consultants (Pvt.) Ltd
September, 2026 – Present

- Facilitate public hearings and stakeholder consultations under Improving Urban Governance and Infrastructure Project (IUGIP) implemented by LGED.
- Maintain and update the Public Hearing Response Matrix to track issues raised, actions taken and resolution status.
- Prepare comprehensive public hearing reports documenting community feedback, project responses, follow-up actions and outstanding issues for project monitoring and reporting.
- Update and process road inventory dataset for assigned project area.

Research Assistant,
August, 2025 – August, 2026

Mafrid Haydar, Assistant Professor; Department of Urban and Regional Planning, Khulna University of Engineering & Technology

- Integrated remote sensing, GIS and machine learning techniques for soil organic carbon (SOC) prediction and spatial mapping.
- Processed and analysed multi-source geospatial and environmental datasets for predictive modelling.
- Developed, tuned and validated multiple machine learning regression algorithms.
- Produced spatial SOC prediction maps and supported interpretation of environmental drivers influencing SOC variability.

Intern, Rajdhani Unnayan Kartipakkha (RAJUK)
March, 2026 – March, 2026

- Digitized cadastral and zoning boundaries for Uttara Sector-10 as part of the Detailed Area Plan (DAP).
- Performed sub-zoning and mapping of Detailed Area Plan (DAP) jurisdictional area.

PROJECTS

Observatory for Salinity in Coastal Village of Bangladesh; Yale University and Massachusetts Institute of Technology, USA; 2026
May, 2026 – May, 2026

Supervisor: Showmitra Kumar Sarkar, Assistant Professor;
Department of Urban and Regional Planning, KUET

- Prepared soil samples for electrical conductivity (EC)/ salinity analysis by oven-drying, crushing, and homogenizing soil samples.
- Operated the laboratory EC/salinity measurement instrument to determine soil electrical conductivity of prepared samples.
- Recorded, organized, and maintained soil EC/salinity measurements for subsequent analysis and interpretation.

Preserving The Rose Village: Integrated Planning Proposal for Golap Gram, Birulia, Savar, Dhaka March, 2026 – March, 2026

Supervisor: Md. Shahnewaz Haque;
Deputy Town Planner, RAJUK

- Conducted land-use and spatial planning for preserving 250–300 ha of floriculture land in Golapgram, Savar.
- Developed planning interventions using Land Readjustment (LR), Transfer of Development Rights (TDR), Community Land Trust (CLT), and Payment for Ecosystem Services (PES).
- Supported project budgeting, revenue projections, NPV, IRR, sensitivity analysis, and financing strategy to assess project feasibility and self-financing potential.

THESIS

Wavelet Decomposed Short Term Forecasting of Daily Precipitation Using Artificial Neural Networks in Khulna, Bangladesh September, 2025- August, 2026

Supervisor: Dr. Tusar Kanti Roy, Professor;
Department of Urban and Regional Planning, KUET

- Developed a short-term daily precipitation forecasting framework for Khulna using wavelet decomposition function and Artificial Neural Networks.
- Identified the underlying trends and persistence of rainfall across five rain gauge stations in Khulna.
- Estimated extreme rainfall intensities, durations, and return periods.

SOFTWARE & TECHNICAL SKILLS

GIS	ArcGIS Pro, QGIS, ArcMap
Remote Sensing	Google Earth Engine, SNAP, PolSAR Pro, Google Earth Pro
Web GIS	ArcGIS Online, ArcGIS StoryMaps
Programming Language	Python, JavaScript, C++
Statistical Analysis	Python, R, SPSS, Excel
Database	MySQL
Design	AutoCAD, AutoCAD Civil 3D, Blender, SketchUp
Visualization	Origin Pro, Power BI
Presentation	PowerPoint, Canva, Microsoft Project
Report	Microsoft Word, LaTeX

RESEARCH INTERESTS

Geospatial Modeling with integrated Artificial Intelligence (GeoAI); Machine Learning and Deep Learning with GIS, Remote Sensing and Photogrammetry Techniques; Environmental Modeling; Hydrometeorological Modelling.

Awards & Scholarships

1. **Dean's Award** 2022-2026

Given by - Civil Faculty, Khulna University of Engineering & Technology (KUET)

This award was given for achieving the minimum CGPA of 3.75 in 1st year, 2nd year, 3rd year and 4th year.

2. **Technical and Compensatory Scholarship** 2022 –2026

Given by - Khulna University of Engineering & Technology (KUET)

The scholarship was given for achieving satisfactory result and merit in each term during the undergraduate program.

3. **Junior Scholarship (General)** 2015

Rangpur Zilla School, Rangpur

4. **Primary Scholarship (Talent Pool)** 2012

Rangpur Zilla School, Rangpur

Workshop Attended

Successfully completed the "Fundamental Competitive Programming Workshop by SGIPC, KUET", held on July, 2022.

Courses and Certifications

1. The NASA Applied Remote Sensing Training (ARSET) Program [NASA - National Aeronautics and Space Administration]
2. Hyperspectral Data for Land and Coastal Systems [NASA - National Aeronautics and Space Administration]
3. Using Imagery to Locate Areas of Interest [ESRI]
